Protective and functional textiles

INTERCONVERTERS PVT. LTD - *Interloping quality fabric*

Who we are. What we do.

Interconverters Pvt. Ltd.. **For extreme requirements.**

Heat, sun, salt water and much, much more: protective and functional textiles need to offer the highest degree of assurance – also under unusual circumstances. Interconverters Pvt. Ltd. is your expert for demanding technical textiles. We develop, calculate and manufacture textile solutions for extreme requirements. Precisely and for a perfect fit.

High-tech company. **For protective and functional textiles,** **automotive, industrial and more.**

At our modern company headquarters in Karachi, Pakistan, more than 30 employees develop and produce elastic and non-elastic woven and knitted tapes, and also medical bandages. Providing our services to textiles apparel, home textiles ,automotive, aviation, industry and many other branches – for customers all over the world.

Latest production technology. **For innovative solutions.**

Our machine park with its ultra-modern production facilities is always state-of-the-art and enables the most innovative manufacturing processes. It can be used variably for individual textile solutions.

Competent solution partner. **For our customers.**

At Interconverters Pvt. Ltd. we view ourselves as a competent solution partner for clothing and outdoor manufacturers. Our thoughts and actions centre on the needs of our customers. Our most important goals: intelligent integrated solutions, highest product quality and satisfied customers.

” *Interconverters Pvt. Ltd. is more than a manufacturer of high-quality textiles. We are your innovative partner for high-tech narrow textiles.* “

Haseeb Khan
Managing Director
Interconverters Pvt. Ltd.

Narrow textiles for protective and work clothing.

Safety guaranteed.

Precise specifications.

For protection under extreme conditions.

Great heat, high humidity, frequent industrial washing – protective and work clothing often needs to withstand extreme loads. And at the same time meet very special requirements - maximum skin friendliness, for example. We develop narrow textiles for all areas of application and the most demanding tasks.

Bi-elastic knitted fabrics for motorcycle clothing. Saltwater resistant cords for deep-sea clothing. Heat-repellent and flame-retardant textiles for blast furnace work. Skin-friendly and disinfectable textiles for medical personnel ...

Specially developed, precisely defined, high-quality workmanship: our textile solutions meet the specifications necessary for the respective application in an absolutely reliable way. This is how we provide protection for a wide variety of tasks. Safety guaranteed.

Potential fields of application:

- Cuffs on sleeves, trouser legs, gloves
- Fasteners
- Elastic gap covers
- Straps and nets on pockets and rucksacks

Woven Fancy tape

- woven, elastic, variable width and colour, customer-specific equipment

Rubber tape

- woven, elastic, variable width and colour, customer-specific equipment

Reliable narrow textiles for protective clothing: this means maximum safety down to the details.

Hemming strap

- woven, elastic, also 2-coloured, variable width and colour, customer-specific equipment

Bandage

Knitted High Elastic Bandage, Made of Cotton and Polyester, Breathable

Carrier strap

- woven, elastic, variable width and colour, customer-specific equipment

Woven tapes

- flame-retardant, slotted, perforated and with eyelets, variable width and colours

Tapes, Braids, Bandages, Nets.

Innovative narrow textiles for protective and functional textiles.

Research & Development.

In cooperation with research institutions.

Within the framework of collaboration with universities and other research institutions, we ourselves are involved in the further development of innovative textiles and manufacturing processes. The latest research results flow directly into our new developments.

Quality. Sustainability Responsibility.

Maximum capability for exacting demands.

Certified environmental management. For people and nature.

We are a future-oriented company. We take our responsibility for people and the environment very seriously – in everything we do: we minimise delivery routes to reduce CO₂ emissions. Our raw materials comply with EU environmental directives. Many of our products are manufactured according to OEKO-TEX® Standard 100. Our environmental management system is certified according to ISO 14001.

Tried and trusted quality. For our customers.

Highest quality takes top priority at Interconverters Pvt. Ltd.. In demanding audits we regularly confirm our consistent and successful quality and process management.

All business and production processes are integrated into quality assurance systems that are certified according to ISO 9001.

“At Interconverters Pvt. Ltd. We are committed to foster an atmosphere of trust and mutual respect among our employees, customers, and suppliers, enabling us to excel as a leading global provider of elastic and rubber solutions. We strive to set the benchmark in quality conversion, exceptional customer service, value-driven elastic solutions, and sustainable long-term success.”
